

Quality Leadership 2020

Are you challenged by managing suppliers? Are you satisfied with the cost of quality? How do you operationalize certifications? Are your people motivated to adhere to quality standards?

As Quality Leaders the culture you operate within needs to be consistent and with observable patterns of behavior. In your organization it can be defined as "how you get things done."

Please join us at this exciting roundtable discussion and hear from our member companies on how they are taking the Quality challenges of 2020.

Hosted by Paranet Members from:

HUSCO International
YASKAWA Electric
SPX Transformer Solutions

Facilitated by **Ed Panelli**, Quality Advisory Group Director

Wednesday, March 25, 2020

8 AM – 12 PM

The Paranet Group

Large Lobby Training Room

10000 W. Innovation Drive

Wauwatosa, WI

Register

Or call Paranet at 262.796.2560

At Paranet, our Quality Leadership members will share **best practices**, current **trends**, **struggles**, and **successes** related to creating and sustaining quality practices.

The agenda will be participant-driven; possible discussion topics include:

- Efficiently **managing** supplier **cost of quality**
- **Operationalizing** Quality **Certifications**, e.g. ISO, so they are value-adds.
- Building **Quality** into an efficient **NPI process**
- **Systems that communicate** such as QRM
- **Motivating** around Quality Standards

Please be our guest at this Roundtable Event. If are not currently a member of our Quality Advisory Group, we hope you will have an interest in learning more about membership.
Just let us know!

Pass it On!

This event is open to Paranet members and their guests!
