Value Stream Mapping

VIRTUAL ZOOM CALL
**Tuesday, September 22, 2020
8:30-10:30 am**

MEMBER PRESENTER
Stephanie Buck
Continuous Improvement Manager
at Briggs & Stratton

REGISTER NOW

How to Create:

- Current state maps
- Future state maps
- Action plans to achieve the future state

Discussion Questions:

- How detailed should the maps be?
- What is the difference between a VSM and a process map and when is each applicable?
- Who should create the maps and can it be done virtually?
- How do we turn a map into a plan, what order should we implement, and where do we start?

Roundtables are great venues for sharing ideas and best practices around a particular topic. In these member-to-member events, you will get great support and new ideas. It is also a wonderful opportunity to meet other Paranet members. Please come prepared to talk about what you have done, what has worked and where you may have gotten stuck. Please bring examples that you are currently using to share with the group.
